THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.**

**THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement filed 8/20/04 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

The reference recited in the IDS filed 8/20/04 having document number GB 2265481A does not appear in the file wrapper. However, a document filed with this IDS having a document number GB 2265381A does appear in the file wrapper. It appears that a typographical error resulted in the recitation of 2265481A of the IDS filed 8/20/04. Therefore, document number GB 2265481A has been stricken out on the IDS filed 8/20/04, and has not considered. Additionally, the IDS filed 8/20/04 has been annotated to recite the correct document number GB 2265381A.

### ***Allowable Subject Matter***

Claims 3, 8-17 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest introducing a mixture of a fuel and an oxygen containing gas, at a pressure lower than in step (a) into the second end of the second zone for combustion and passage through the second and first zone thereby heating the

first zone, wherein the second zone contains bed packing materials in combination with the other limitations present in claim 10.

The closest prior art of record, US 6767530, teaches a regeneration step, but fails to teach that a mixture of air and fuel is first introduced into a second zone containing packing materials at a lower temperature than the first zone. Applicant's arguments filed on 11/9/09 are persuasive. Additionally, it would not have been obvious to one of ordinary skill in the art to introduce the mixture of fuel and air into the second zone without the benefit of Applicant's disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Please amend the application as follows:

In claim 8: please change "7" to --10--.

(This amendment is inserted to remedy the dependency of claim 8 as claim 7 is a canceled claim.)

In claim 10, line 4: please change "stream" to --steam--.

(This amendment is inserted to remedy the typographical error of stream in place of steam.)
